

LWNE22SP115TW01, LWN432SP115TW01, SWNMN2SP115TW01

Top Load Washers

Our top load washers are constructed from heavy-duty components to ensure an extended life in your laundry operation, including a stainless steel washtub, all-metal transmission and a commercial-grade cabinet finish. Compliant with the current U.S. Department of Energy water and energy standards for commercial washers, your laundry will realize significant savings in water and energy costs.

- Extra large capacity stainless steel tub ensures long-lasting, dependable performance.
- Advanced suspension system eliminates the possibility of an unbalanced load.
- Curved four-vane agitator delivers an industry-best 210° wash stroke that produces unparalleled cleaning results.

Electronic Homestyle Control

The Electronic Homestyle control is durable and easy to operate with intuitive selection buttons. It features a time-remaining display, six preset cycle buttons, cycle adjustability, along with additional cycle enhancer options for a pre-wash or second rinse cycle.

Mechanical Homestyle Control

Speed Queen[®] washers with Mechanical Homestyle controls are designed for durability and are easy to operate with a multi-cycle timer knob and extra rinse switch.

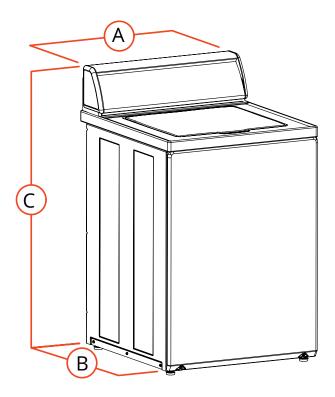

winner,

E-Mech Control

The E-Mech control features a straightforward design that offers users simple water temperature and fabric selections, and uses cue lights to monitor progress through the wash cycle.
